

DECEMBER NEWS

A NOTE FROM THE TEACHERS:

Thank you for your continued hard work and cooperation to ensure student success, safety, and well-being. At Jackson Road, we strive for respectful, responsible, and safe behaviors.

EVENTS

Dec. 8th, 9th and 10th-
COGAT testing

December 23rd- Winter
Celebrations in Classrooms
2:30pm-3:15 pm

Dec. 24 - Jan. 2: Winter
Break; No School

REMINDERS

- With colder weather upon us, please ensure that your child is dressing warmly
- Ensure that take-home folders are checked daily.
- Homework is sent home weekly, which includes a reading activity page and Eureka Math practice

MATH FOCUS

This month, we will continue to work within Module 4 of the Eureka curriculum. Students apply their understanding of place value strategies to the addition and subtraction algorithm, moving from horizontal to vertical notation. Their understanding of vertical addition and subtraction starts with concrete work with place value disks, moving to pictorial place value chart drawings, and ending with abstract calculations. Additionally, students will apply these strategies when solving word problems.

Module 4 Parent Tips- [English](#), [Spanish](#)

READING & WRITING

We will be finishing up our knowledge unit on Greek myths this month and starting a new knowledge unit on Cycles in Nature. They will learn about the different life cycles of plants and animals. We will be doing research on a scientific phenomena in this unit as well. For our skills portion of reading, we will continue to focus on the difference between common and proper nouns, different spelling patterns and building our spelling trees. Towards the end of the month, we will move into our next skills unit where we will focus on vowel spelling patterns and learning to write a friendly letter.

SCIENCE & SOCIAL STUDIES

In Science, students will explore changes to the Earth's surface, and use a variety of print sources to make a claim as to whether Earth's events occur quickly or slowly. They extend this understanding of different rates of change to Earth's surface through an investigation of earthquakes.

In Social Studies, we will use fiction and non-fiction texts to compare the elements of two different cultures, and how they meet their human needs for food, shelter, and other commonalities such as recreation, music, and stories.

TEACHER CONTACTS
