

Using the Power One Search Tool

1. Set up search: Catalog tab/Library Search option/Power subtab
2. Include Online Resources - select the subscription databases and free resources recommended for your project
3. Enter your SEARCH TERMS and set LIMITERS (specific search terms and Boolean searching recommended when using ONE SEARCH)

4. To view database articles: Select the ONE SEARCH subtab; click on **Get Results** (if it shows)

and select  Show

Database result list will look this:

The screenshot shows a web browser window displaying search results from the Gale Virtual Reference Library. The search query is "immigration AND 1960s", and 11 results are found. The first seven results are listed below:
